THE POWER OF GIVING

The real power of giving is that it multiplies and reciprocates. There are advantages to businesses who support local nonprofits, but are you aware of these advantages? The Power of Giving is a unique program seeking to display how business people can work together with local nonprofits to make Waukesha County a better place to work, play and live.

Attend The Power of Giving to talk with 30 local Alliance member nonprofit organizations and learn how they can partner with your business to help you do what you do better. Speak with board members at the various organizations to learn why their businesses got involved, what benefits they've seen as a result and how you can get involved too!

Participating nonprofits:

- | | |
|--|--|
